

Project Demo Planning

Date	06 July 2026
Project Title	Rising Waters
Maximum Marks	1 Marks

Project Demo Planning

S.No	Demo section	Description	Duration (Min)	Responsible Member
1	Introduction	Introduce yourself, project title, and problem statement	1	Self (Gadde Mokshith Reddy)
2	Dataset & Model Training	Explain the dataset, preprocessing, feature selection, and XGBoost model training	1	Self (Gadde Mokshith Reddy)
3	Code Explanation	Explain project structure, Flask application, model loading, prediction logic, and GitHub repository	1	Self (Gadde Mokshith Reddy)
4	Live Application Demo	Run the application, enter inputs, and show Flood/No 1Flood p1rediction	1	Self (Gadde Mokshith Reddy)
5	Project Results	Show model accuracy, output pages, performance, and key features	1	Self (Gadde Mokshith Reddy)
6	Conclusion	Future enhancements, project summary, and thank you	1	Self (Gadde Mokshith Reddy)

Demo Flow Summary

S.No	Activity	Notes
1	Introduction & Problem Statement	Explain why flood prediction is important and state the project objective.
2	Solution Overview	Explain the dataset, machine learning model (XGBoost), Flask framework, and project architecture.
3	Live Feature Demonstration	Demonstrate code execution, model loading, prediction, GitHub repository, and final application output.
4	Q&A Session	Answer evaluator questions regarding implementation, model, and future improvements.
